

Series C Retail Range

The Retail Series C models offer a unique, innovative and flexible choice of fuel pumps and dispensers for smaller garage forecourts where space is at a premium and the longer-term cost of ownership is of great importance.

With reliability the number one requirement to any service station, the Series C Retail pumps are built to an unprecedented standard of quality using the latest electronic designs coupled with world-beating hydraulics to ensure accurate, repeatable and reliable dispensing of fuel time after time.

In addition, the pumps are manufactured out of solid stainless steel, to give a finish to the equipment which is both visually attractive and provides a truly lasting appearance without corrosion.

An affordable, financially sound solution to re-pumping when it pays to stand out from the crowd.

Series C Retail Mono

Series C Retail Two-Product 'True' Twin

Model Range

Complete range of Mono & Twin units; full details and model numbers are shown overleaf.

Standard Features

All units are manufactured & certified to EN13617-1 SIRA Certificate number 05ATEX9095. Approved by UK Weights & Measures for re-sale of fuel either in attendant operated mode, or in conjunction with an automated payment/fuel monitoring system. Standard features which are part of our all inclusive package:

- Solid stainless steel construction
- Styled head design with superb 1" illuminated cash & volume displays single sided
- Integral nozzle locking (no padlocks required)
- Infra-red controlled management functions with digitally displayed totaliser readings
- High-hose option with top quality hoses, hose break couplings and automatic ZVA nozzles
- Unique ground sealed base for ease of installation
- Pumping unit with integral air separation for use with underground storage tanks
- Instantly switchable to attendant operated from self-service mode in the event of control equipment failure
- Ambient operating temperature -20°C to +40°C
- Commissioning and 12 months on-site warranty

Options

- Stage two vapour recovery
- Matching stainless steel under pump plinths for service stations without suitable pump islands
- Under pump cradles/stools for new installations
- Double sided display
- Built-in hose retriever

All units also available in Dispenser format
